

Notiee Privacy Policy

Version: v1.0.1

Effective Date: May 24, 2026

Developer: Qinghua Tan (Independent Developer)

I. Introduction

Thank you for using Notiee.

We deeply understand the importance of privacy. Notiee is a local-first utility application, built on the core principle that your data stays in your hands. This Privacy Policy explains, in plain language, what we collect, how we use it, and how we protect your information. This policy applies to the iOS version of the Notiee App. By downloading, installing, or using Notiee, you confirm that you have read and agree to this policy.

II. Information Collection and Use

2.1 Information We Do Not Collect

Notiee adheres to a data minimization principle. The following types of information are never collected:

Information Type	Description
Personally Identifiable Information	No account system; we do not collect names, email addresses, phone numbers, ID numbers, or any personally identifiable information
Location Information	We do not request or collect GPS location or any location-related permissions

Information Type	Description
Device Identifiers	We do not collect IDFA, IDFV, or other unique device identifiers
Usage Behavior Analytics	No tracking beacons, no analytics SDK, no usage habit tracking
Advertising Identifiers	No ads, no advertising SDK, no tracking technologies
Contacts	We do not read or collect contacts information

2.2 Information Stored Locally on Device

All Notiee data is stored locally on your device by default. The following are the categories of data and their storage methods:

Information Type	Storage Location	Purpose
Captured Photos	Device local file system (within App sandbox)	Recording class notes, meeting content, etc.
OCR Recognized Text	Local JSON files	Text search and review
AI-Generated Summaries	Local JSON files	Knowledge extraction and revision
To-Do Items	Local JSON files	Task management
Custom Folders	Local JSON files	Content categorization
Custom Tags	Local JSON files	Content tagging and filtering
API Key (AI Service Key)	iOS Keychain (hardware-level encrypted storage)	Identity authentication when calling AI services
App Settings Preferences (theme, language, etc.)	iOS UserDefaults	Personalized user experience
Calendar Event Information	Temporarily processed in memory only; not stored	Matching current events when capturing photos to provide

Information Type	Storage Location	Purpose
	long-term	context

2.3 Information Sent to Third Parties

In the following specific scenarios, data may be sent from your device to third-party services:

Scenario	Content Sent	Recipient	Description
AI Photo Processing	Image data + text prompts	AI service provider configured by the user	You independently choose your provider (e.g., OpenAI, DeepSeek, etc.); data is transmitted via HTTPS encryption
iCloud Sync (if manually enabled)	.tmn encrypted archive files	Apple iCloud Drive	You manually trigger the export; data is stored in your personal iCloud space, protected by Apple's security framework

Important Note: Notiee does not operate its own servers. In none of the above scenarios does Notiee intercept, cache, or store your data at any intermediate stage.

III. Permissions Usage Description

All system permissions requested by Notiee serve specific functionalities and will never be misused or used beyond their intended scope:

Permission	Purpose	Required?	How to Revoke
Camera	Capture class notes, meeting records, whiteboard content	Core function, required	iOS Settings → Privacy → Camera → Off
Microphone	Voice recording (if you use the voice feature)	Optional	iOS Settings → Privacy → Microphone → Off

Permission	Purpose	Required?	How to Revoke
Photo Library (Read)	Import existing images from the photo library for AI analysis	Optional	iOS Settings → Privacy → Photos → Select "None"
Photo Library (Write)	Save processed images to the photo library	Optional	iOS Settings → Privacy → Photos → Disable write permission
Calendar	Read system calendar to match current events and provide context	Optional (events can be selected manually if disabled)	iOS Settings → Privacy → Calendar → Off
Speech Recognition	Voice-to-text functionality	Optional	iOS Settings → Privacy → Speech Recognition → Off
Notifications	Event reminder push notifications	Optional	iOS Settings → Notifications → Notiee → Off

All permissions can be revoked at any time in iOS system settings. After revocation, the corresponding features will become unavailable, but other features will not be affected.

IV. Data Storage and Security

We have implemented multiple layers of security measures to protect your data:

Security Measure	Description
Local-First Architecture	All records are stored only in the device's local App sandbox by default and are not uploaded to any server
Keychain Encryption	API Keys are stored in iOS Keychain, which benefits from Secure Enclave hardware-level encryption and is never written to any regular file

Security Measure	Description
HTTPS Encrypted Transmission	All AI service calls use HTTPS protocol encryption to prevent man-in-the-middle attacks
No Cloud Retention	Notiee does not operate its own servers; it does not collect, store, or relay any user content data
iCloud Security	If you manually enable iCloud Sync, data is stored in your personal iCloud Drive, protected by Apple's end-to-end security framework
Sandbox Isolation	The iOS App sandbox mechanism ensures that other applications cannot access Notiee's data

V. Data Sharing and Disclosure

We uphold the following commitments:

- **No Selling:** We will never sell your data to third parties in any form.
- **No Renting:** We will never rent your data to third parties in any form.
- **No Sharing (Commercial Use):** We will never share your data with third parties for commercial purposes.

We may disclose information only under the following statutory circumstances:

1. **Legal Requirements:** Pursuant to laws and regulations, court orders, or mandatory requirements from government authorities;
2. **Rights Protection:** To protect our or others' legitimate rights and interests (e.g., preventing fraud or cybersecurity incidents);
3. **Your Explicit Consent:** Circumstances in which you explicitly authorize us to disclose.

AI Service Call Notice: When you use AI features, photos and text are sent to the AI service provider you have chosen for processing. That provider's data processing practices are governed by its own privacy policy; we recommend reviewing it in advance. Links to mainstream providers' privacy policies are provided in the appendix.

VI. Your Rights

You have full control over your data:

Right	How to Exercise
Right of Access	All data can be viewed directly within the App at any time; no request is needed
Right of Export	A one-click export feature is available within the App to export all records as a .tmn encrypted archive file
Right of Deletion	You may delete any individual record or clear all data with one click within the App
Right to Withdraw Consent	You may disable any authorized permission at any time in iOS system settings
Data Portability	Exported .tmn files can be freely migrated and backed up to any location

Since Notiee has no account system, uninstalling the App permanently erases all local data. If you need to retain your data, please use the export feature to back it up first.

VII. Protection of Minors

Notiee is primarily designed for students (including middle school students and above) and working professionals. It is not specifically targeted at children under the age of 14, and we do not knowingly collect personal information from children.

If you are the guardian of a minor and discover that the minor under your guardianship has used Notiee without your consent and generated data that needs to be deleted, please contact us using the contact information at the end of this policy. We will assist after verification.

VIII. Policy Updates

This Privacy Policy may be updated as the product evolves. The update rules are as follows:

- **Minor Revisions (e.g., wording optimization):** This page will be updated directly without separate notice.
- **Material Changes (e.g., adding new data collection categories):** Notified via an in-app pop-up that explains the key changes.
- **Continued Use Constitutes Acceptance:** After an update is published, your continued use of Notiee constitutes acceptance of the updated policy. If you do not agree, please discontinue use and uninstall the App.

Historical versions of this policy are not available for online review. If you wish to review past versions, you may request them via email.

IX. Third-Party Service Privacy Policies

Notiee's AI features depend on third-party AI service providers configured by users. We recommend that you review the privacy policies of the corresponding providers when configuring your API Key:

Service Provider	Privacy Policy Link
OpenAI	https://openai.com/policies/privacy-policy
DeepSeek	https://www.deepseek.com/policies/privacy
Alibaba Cloud Bailian	https://help.aliyun.com/document_detail/
Volcengine	https://www.volcengine.com/docs/
MiniMax	https://platform.minimaxi.com/document

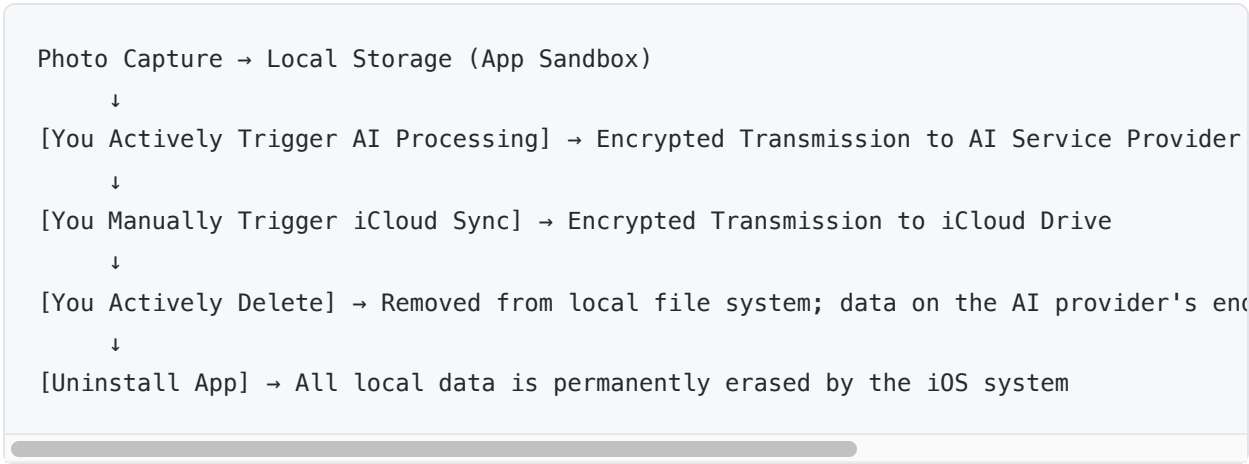

X. Contact Information

If you have any questions, comments, or complaints about this Privacy Policy, please feel free to contact us through the following channels:

- **Email:** woxiantao@icloud.com
 - **Response Time:** We will respond within 7 business days of receiving your email.
-

Appendix A: Data Lifecycle

The following illustrates the complete flow of your data within Notiee:

Key Principle: You control the full data lifecycle. From creation, through use, to deletion—every step is actively triggered by you. Notiee performs no silent operations.

Appendix B: Technical Privacy Commitments

Technical Implementation	Description
Zero Tracking Beacons	The App does not integrate any analytics, statistics, or crash reporting SDKs
Zero Advertising	The App does not integrate any advertising SDKs
Zero Silent Network Requests	The App does not spontaneously send data to any server; all network requests are actively triggered by you
Localized API Key Encryption	Stored in iOS Keychain; automatically cleared upon App uninstallation with no residual traces
End-to-End HTTPS	All AI service requests use HTTPS encrypted transmission
No Third-Party Login	Does not integrate any third-party login SDKs such as WeChat, QQ, or Apple ID

Core Principle Reaffirmed: Notiee is a purely local tool. Your photos, notes, AI summaries, to-do items—all data belongs to you and stays in your hands. We have no servers and do not store any of your content. This is our understanding of, and commitment to, privacy.

This Privacy Policy was last updated on May 24, 2026.
