

Notiee User Agreement

Version: v1.0.1

Effective Date: May 24, 2026

Developer: Qinghua Tan (Independent Developer)

I. Agreement Description

1.1 Agreement Content

This Agreement is entered into between you (hereinafter "User") and Qinghua Tan (Independent Developer, hereinafter "Developer" or "We") regarding the downloading, installation, and use of the Notiee App (hereinafter "the Software" or "Notiee"). Please read all terms of this Agreement carefully.

1.2 Acceptance of Agreement

Any act of downloading, installing, or using Notiee shall be deemed as your having read, understood, and agreed to be bound by all terms of this Agreement. If you do not agree with any term of this Agreement, please immediately cease use and uninstall the Software.

1.3 Agreement Scope

This Agreement applies to the iOS version of Notiee. This Agreement does not apply to third-party services accessed through Notiee (such as AI service providers); those third-party services are governed by their respective terms of service.

1.4 Agreement Updates

We reserve the right to modify this Agreement at any time. The update rules are as follows:

- **Minor Revisions:** Updated directly without separate notice.
- **Material Changes:** Notified via an in-app pop-up explaining the key changes.

- **Continued Use Constitutes Acceptance:** After an update is published, your continued use of Notiee constitutes acceptance of the updated Agreement. If you do not agree, please discontinue use and uninstall.

II. Service Description

Item	Content
Service Provider	Qinghua Tan (Independent Developer)
App Name	Notiee
Current Version	v1.0.1 (iOS)
Core Features	Calendar-aware photo capture, AI knowledge extraction, OCR text recognition, calendar management, to-do management
Service Nature	Local utility application, not a cloud service. All data is stored locally on your device by default
Usage Requirements	iOS 18.0 or later, iPhone device

2.1 Core Feature Overview

Notiee is a productivity tool specifically designed for classroom learning and meeting recording scenarios. Key features include:

- **Calendar-Aware Photo Capture:** Links to your calendar events and automatically matches the current event context when taking photos.
 - **AI Knowledge Extraction:** Uses AI services you configure (e.g., OpenAI, DeepSeek) to generate structured summaries and to-do items from captured content.
 - **OCR Text Recognition:** Extracts text from photos with full-text search support.
 - **Task Management:** Converts AI-generated to-do items into a manageable task list.
 - **Content Organization:** Categorizes and organizes records through folders and tags.
-

III. User Registration and Account

The current version (v1.0.1) does not provide account registration or login functionality. All data is stored on your local device, and core features can be used without an internet connection.

If future versions introduce account functionality (e.g., for cross-device synchronization), we will notify you via an in-app pop-up and update this Agreement accordingly, at which point you will need to separately agree to the relevant terms.

IV. User Conduct Standards

4.1 Permitted Behavior

You may use Notiee for the following lawful purposes:

- Personal study records (e.g., class notes, literature excerpts)
- Work meeting records (e.g., whiteboard photos, discussion minutes)
- Personal schedule management and task planning
- Other lawful personal uses

4.2 Prohibited Behavior

In the course of using Notiee, you shall not engage in the following conduct:

1. Illegal Content: Photographing, storing, or disseminating any content that violates the laws and regulations of the People's Republic of China, including but not limited to:

- Content that endangers national security or discloses state secrets
- Obscene, pornographic, gambling-related, violent, or terrorist content
- Content that infringes upon others' privacy rights, portrait rights, or reputation rights
- Content that infringes upon others' intellectual property rights (copyright, trademark rights, patent rights, etc.)
- False, fraudulent, or misleading content

2. Destructive Behavior:

- Reverse engineering, decompiling, disassembling, or attempting to extract source code from Notiee

- Interfering with, damaging, or bypassing Notiee's security mechanisms
- Exploiting vulnerabilities to perform unauthorized operations

3. Abusive Behavior:

- Using Notiee to send spam or engage in harassment
- Using AI features to generate illegal, harmful, or infringing content
- Using the App for any activities that violate Chinese laws and regulations

If you violate the above provisions, we reserve the right to take appropriate measures, including but not limited to: terminating service and reporting to relevant authorities. All legal consequences arising from your violations shall be borne solely by you.

V. Intellectual Property

5.1 Intellectual Property of the App

The intellectual property rights in the Notiee software itself (including but not limited to program code, user interface design, icons, logo, name, documentation, and all related materials) are owned by the Developer and are protected by the Copyright Law of the People's Republic of China and related laws and regulations.

Without the Developer's written permission, you may not copy, modify, distribute, sell, or use Notiee for any commercial purpose.

5.2 Intellectual Property of User–Generated Content

All content generated by you through Notiee (including but not limited to captured photos, generated notes, AI summaries, and to–do lists) belongs to you in terms of intellectual property rights. The Developer claims no rights over such content.

5.3 Third–Party Open Source Components

Notiee uses the following open source components, each governed by its respective license agreement. Full license texts are provided in the appendix.

Component	License	Purpose
NetworkImage	MIT	Network image loading and caching
swift-markdown-ui	MIT	Markdown content rendering
OnboardingKit	MIT	New user onboarding pages
WhatsNewKit	MIT	Version changelog display
ZIPFoundation	MIT	ZIP compression and decompression
PageView	MIT	Page swipe browsing
swift-cmark	BSD	Markdown syntax parsing

VI. AI Feature Special Provisions

Notiee's AI features operate on a "User-Configured AI Service" model. You must acknowledge and agree to the following terms:

Item	Description
Service Provision Method	You independently register for and obtain an API Key from an AI service provider (e.g., OpenAI, DeepSeek, etc.) and configure it within Notiee for use
Data Processing	When using AI features, photo image data and text prompts will be sent to the AI service provider you have configured for processing. Notiee does not intercept or store this data at any intermediate stage
Fee Responsibility	AI service providers may charge according to their pricing policies; such fees are borne solely by you. Notiee itself does not charge for this
User Responsibility	You must obtain the API Key yourself and ensure the legality of its use. You must also comply with the terms of service and privacy policies of the corresponding AI service provider

Item	Description
AI Output Disclaimer	AI-generated summaries, to-do items, analysis results, and other content are for reference only and do not constitute any form of professional advice (including but not limited to legal advice, medical advice, or academic conclusions). You should independently assess their accuracy and applicability

VII. Third-Party Services

In the course of using Notiee, you may interact with the following third-party services:

- **AI Service Providers:** AI services you configure (OpenAI, DeepSeek, Alibaba Cloud Bailian, Volcengine, MiniMax, etc.). These services are governed by their respective terms of service and privacy policies.
- **Apple EventKit:** Calendar functionality reads system calendar data through the Apple EventKit framework; data processing is governed by Apple's privacy policy.
- **Apple iCloud:** If you manually enable the iCloud Sync feature, data will be stored in your personal iCloud Drive, governed by Apple's iCloud Terms of Service.

When using the above third-party services, you must comply with their respective terms of service. Notiee assumes no responsibility for any disputes or losses arising from third-party services.

VIII. Disclaimer

8.1 Service Provided "AS IS"

Notiee is provided on an "AS IS" basis without any express or implied warranties, including but not limited to:

- No warranty that the service is error-free, uninterrupted, or defect-free
- No warranty as to the accuracy, completeness, or suitability of AI feature output results
- No warranty of full compatibility with all devices or system versions

8.2 Third-Party Service Risks

AI features depend on the third-party AI service provider you configure; their availability, response speed, and service quality are beyond our control. We assume no responsibility if you are unable to use AI features normally due to factors such as the AI provider's service interruptions, price changes, or policy adjustments.

8.3 User Liability

All consequences arising from your use of Notiee in violation of this Agreement or applicable laws and regulations shall be borne solely by you. If your actions cause the Developer to suffer third-party claims or administrative penalties, you shall compensate the Developer for all losses incurred.

8.4 Force Majeure

We assume no responsibility for data loss or service interruptions caused by force majeure (including but not limited to network failures, communication interruptions, device damage, system crashes, natural disasters, or government actions). We recommend that you periodically back up important data using the export feature within the App.

IX. Agreement Changes

We reserve the right to modify this Agreement at any time. The modified Agreement will be published within the App, and material changes will be notified via a pop-up. Your continued use of Notiee constitutes acceptance of the modified Agreement. If you do not agree with the modifications, please discontinue use and uninstall the Software.

X. Governing Law and Dispute Resolution

The formation, execution, and interpretation of this Agreement shall be governed by the laws of the People's Republic of China.

Any dispute arising from or in connection with this Agreement shall be resolved through friendly negotiation between the parties. If negotiation fails, either party may file a lawsuit with a competent people's court in the Developer's locality.

XI. Contact Information

If you have any questions, comments, or suggestions regarding this Agreement, please contact us through the following channels:

- **Email:** woxiantao@icloud.com
 - **Response Time:** We will respond within 7 business days of receiving your email.
-

Appendix: Third-Party Open Source Component License List

The following are the third-party open source components used by Notiee and their licenses:

Component	License	Purpose
NetworkImage	MIT License	Network image loading and caching
swift-markdown-ui	MIT License	Markdown rich text rendering
OnboardingKit	MIT License	New user onboarding pages
WhatsNewKit	MIT License	Version changelog display
ZIPFoundation	MIT License	ZIP compression/decompression (.tmn archive export)
PageView	MIT License	Page swipe browsing interaction
swift-cmark	BSD License	Markdown syntax parsing

Full license texts for the above components can be viewed within the App under Settings → Open Source Notices.

Important Notice: By downloading, installing, or using Notiee, you confirm that you have read, understood, and agree to all terms of this Agreement. If you do not agree, please discontinue use and uninstall the Software.

This Agreement was last updated on May 24, 2026.
